forwards a Statement showing the payment made each year by the Government in respect of the printing work done by the Archaeological dept and Oriental Library ever since these departments were placed under the administrative control of the Government and requests that any little work is required during the current year from the Oriental Library and Archaeological dept

Sealed. It is seen from the letter of the Supdt of Printing that the Oriental Government has paid Rs 40,608-8-0 as printing charges on behalf of the Oriental Library and Archaeological dept for about a period of 13 years during of administrative control over these two Depts Roughly the average printing cost per year of these two Depts works out to Rs 3123 and odd. Therefore a provision of this amount in the Press budget or by transfer from Government funds seems to be necessary. Perhaps the Supdt Press may be officially consulted whether he can undertake the printing work of these two Depts during the cost or that any additional provision will have to be made for

12) The Oriental Library and the Archaeological Department are special institutions who have always a number of works of antiquity on hand to print. These works are generally of a special character requiring special type and men of skill and ability to compose as they are required to be set up in Sanskrit, old Kannada and English consisting of diacritical letters representing the peculiar sounds of the vernaculars. Therefore, it used to be the rule that whenever these two offices - especially the Archaeological office - had a number of works on hand ready for publication, a special staff of compositors and proof-readers were sanctioned by Government and a special section formed in the Press to compose solely the works of these offices as was the case in the time of Mr. Lewis Rice who got all the Epigraphia Karnatica volumes printed in the Government Press in this manner. On the other hand, the Oriental Library used to supply types, cases, paper and other material for its works

GENERAL SECRETARIAT
16 [illegible] 1933
No. [illegible]

Serial No.

and even now some Sanskrit type, cases and material that are in the Branch Press are the property of the Oriental Library.

13) When, however, the works of these two offices became normal, the special establishments were disbanded and the press used to do only the Annual Report and one or two minor publications of the Archaeological Department, free of cost, while the Oriental Library publications continued to be paid for. If, as is now stated, there are a large number of Archaeological works awaiting publication, a case is again made out for opening a special section in the Press to deal with them and for voting a special grant for establishment and other charges as formerly. As regards the Oriental Library, there is no reason to change the long established practice of charging for the printing done for it. The Press cannot afford to loose an income of over Rs 3,000/- per year from this source.

14) Considering, however, that the establishment of the Government Press has been reorganised recently, doing away with the piecework system in the Printing and Binding Sections and considering also the fact that the departments are willing to pay the cost of paper, materials, special binding and other out of the ordinary

Note—Contn. Sheet

WD 066—GPB—80,000—26-7-29

Para 8 (iii) - Re the printing & binding of their Archaeological Officer's Annual Reports.

expenses, the utmost concession that can be shown to them is to waive the cost of printing and binding their works, subject to the condition that all special items should be paid for. The cost of composing which is still a piecework item in the Press will have to be borne by the departments concerned as the wages to be paid to the compositors increase in proportion to the quantity of work sent in by these two offices. Composing includes proof-reading which should also be paid for as no separate proof-readers will be employed for reading their works.

GENERAL SECRETARIAT
19 JUL 1933

Returned with compliments:

18) The following is the opinion of the Vice-Chancellor-in-charge arrived at in consultation with the Director of Archaeological Researches in Mysore and the Curator, Government Oriental Library.

19) As regards the Archaeological Department, it appears reasonable that reports and other publications should be printed at the Government Press, free of cost, in view of the fact that, before the transfer of the Department to the administrative control of the University, all printing work was being done free and the fact that the small provision in the Budget of the Archaeological Department made for printing will not be sufficient to meet the cost of its Reports and other special publications. For instance, it is understood that there are in the Press four volumes the Epigraphia Carnatica and two volumes of index to them sent before 1924 yet to be issued; and the cost of this is expected to be about Rs. 9,000/-. The Annual Reports of the Department are themselves to be produced on special paper and specially bound so that they may compare favourably with departmental reports elsewhere. This also is a costly item. It is expected also that the Monograph on Chalukyan Architecture on which the Director has been engaged for the past four years and the catalogue of coins which also is under preparation by the Director will have to be issued soon. The limited budget of the University cannot provide for the cost of these without additional grant from Government. Thus it will be more convenient to have the publications of the Archaeological Department printed free of cost at the Government Press. Instead of the Archaeological Department having to bear any portion of the cost of the printing of these publications (like cost of paper, etc.), it may be understood that the routine printing of the Department (as that of forms and registers) shall be paid for; and it is only reports and publications that will be done free of cost.

GENERAL SECRETARY. 7 NOV 19 No.

Sir,

Adverting to Government Order No.E.1848-50/P.& S.42-23-4, dated the 6th December 1923, directing that all printing and binding works done for the Archl: Department at the Government Presses should be charged for etc., I am directed to forward herewith a copy of letter No.142, dated the 28th September 1932, from the Director of Archl: Researches in Mysore, Mysore, representing the handicap to the Department on account of the above arrangement. I am to state that the Archl: Department and the Oriental Library are institutions placed under the administrative control of the University in accordance with G.O. No.O.21-90/G.M.102-21-8, dated the 4th July 1922 and No.4566-8/Edn.69-14-4, dated the 10th November 1917 and are not constituent parts of the University under the University Regulation. It cannot therefore be expected that the lumpsum grant fixed for the University from time to time should provide funds for meeting special items of expenditure - like the one referred to in the Director's letter - connected with these Departments. If the arrangement of paying to the Presses for printing work connected with the Oriental Library and the Archl: Department should be continued, it would be necessary to apply to Government every time such work is undertaken by these departments. The proposal of the Director has the advantage of saving such frequent references.

The attention of the Government is invited, moreover, to the circumstance that from the time of Mr.B.L.Rice up to 1924, no charge was made by the Government Press to the Archl: Department on account of

12)

cost of printing etc.

It is suggested that a benefit which the Archl: Department enjoyed formerly should not be removed now that the working of the Department has been transferred to the University.

I am therefore to request that Government may kindly be moved to reconsider their order of 6th December 1923 and accord permission for the printing work of the Oriental Library and the Archl: Department to be done, free of cost, at the Government Presses.

I have the honour to be,
Sir,
Your most obedient servant,

Registrar.

h-5.

University of Mysore.

Letter No.142, dated the 28th September 1932, from the Director of Archl: Researches in Mysore, to the Registrar, University of Mysore, Mysore.

In connection with the printing work of this Department I have the honour to state that the total grant in the budget of this department for printing is only Rs.1,140,and if the bill for the first volume of General Index to the Epigraphia Carnatica Volumes is paid there will be no money for printing the reports for 1930 and 1931 which are due to be published during the current official year. Further, a ~~report~~ part of the 4 supplementary volumes of the Epigraphia Carnatica series has been printed and it is proposed that this office should take up the work of completing them since the scholarly world has been urging their early publication. If this department were to pay for their printing, the press bills for thses volumes would come to nearly Rs.10,000, There are then the volumes of the monograph on Chalukyan Architecture, the Numismatic Catalogues and the Excavation report to be published. Their cost would also be very heavy. To these have to be added the bills for the annual reports and other works published by this department. Even if the work of publishing these volumes is extended over a period of 5 years the annual provision under printing that may be required by this department to publish the works already undertaken would be not less than Rs, 6,000, The present printing grant of this department which is somewhere about Rs.1,000, a year is absolutely insufficient to meet the department's needs

To surmount this difficulty I beg to refer to an important privilege enjoyed by this department in the past. The Archl: Department was always a minor department of the Government of Mysore and was recently transferred to the administrative control of the University of Mysore. It even now performs numerous functions of a provincial department like helping in the preserva-

14)

tion of ancient monuments and conducting Archl: survey work etc. Its publications are a continuation of the publications that were being issued by it when it was at Bangalore. Till the year 1924 this department enjoyed the privilege of getting its printing work done at the Government Presses free of cost like many other departments of Government. In the days of Mr.B.L.Rice a section of the Government Press had even been set apart specially for printing Archl: publications, but from the year 1924 the press commenced to send in bills for the cost of printing,paper and binding in accordance with the G.O.No.E.1848-50/P.& S.42-23-4, dated the 6th December 1923. No serious difficulty arose so long as a small report was printed on cheap paper and issued with a poor get up, the other works of importance like the Supplementary volumes of Epigraphia Carnatica, General Index etc., being only in the course of printing. In the next few years the department proposes to make an effort not only to publish the new series of improved reports and the projected works on Excavation, Numismatics and Architecture but also to push on with the work of completing the General Index, the Supplementary volumes of the Epigraphia Carnatica, etc., which have been in the press for nearly 15 years. In view of the present needs of this department and of the inadequate provision made in the budget under printing and publications, I propose that Government may be moved to reconsider the above mentioned orders and once again restore to this department the privilege of getting its printing work done free at the Government Presses, a privilege which it enjoyed for nearly 40 years. and which enabled it to enhance the reputation of the Mysore State all the world over. As a precedent I may point out that this office is receiving a free supply of stationery articles in its capacity as a Government Office and unlike the other

University of Mysore.

offices under the control of the University.

As for the cost of printing materials like papers, binding, boards calico etc., since some of the publications require superior materials not usually stocked in the Government Press, I suggest that their cost may be paid by this Department from its budget grant under 'Printing' adequate provision being made for it in the annual budgets.

From

The *General Secretary to the Government of His Highness the Maharaja of Mysore.*

To

The Superintendent,
Government Printing,
Bangalore.

Sir,

I am directed to state that it is learnt that there are in the Press four volumes of the Epigraphia Carnatica and two volumes of index to them sent by the Archaeological -- Department before 1924 yet to be issued and to enquire why printing work of this Department is in arrears from 1924.

I have the honour to be,
Sir,
Your most obedient servant,

General Secretary to Government.

RS.

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

(General and Revenue Secretariat)

Dated, Bangalore,

No.

From

Gen. al Sec etary to the Gov rnment of His Highness the Maharaja o Mysore.

H. V. Ramaswami, Esq., M.A., B.L.,
Secretary to Government,
General Department,
BANGALORE.

SIR,

GENERAL DEPARTMENT
29 AUG. 1933
No.

V.B. 8/378

With reference to your letter No: G. 991/ P.&.S., dated the 15th instant, re: the progress in printing the works of the Archaeological -- Department, I have the honour to state that the undermentioned volumes of the Epigraphia Carnatica and the Index to the same have been partly printed and are found in various stages of progress.

Supplement to Vol.	XII	(Kannada)
"	IX	"
"	V	"
"	III & IV	"
"	III & IV	(English)
"	V	"
General Index ~~to~~	A to K,	pages 1-378.

The work made fairly good progress till the year 1922 and subsequently no manuscripts were received from the department and therefore no progress could be made. As the preservation of the printed formes for an indefinite length of time was not possible, several references were made to the Director of Archaeological Researches in Mysore, requesting him to give binding order for the matter already printed. It will therefore be seen that the delay in --

completing the volumes has not been due to the slackness on the part of the press. If further manuscripts are sent by the department, every effort will be made by the press to complete the works as early as possible.

I have the honour to be,
Sir,
Your most obedient servant,

Ag. Superintendent,
Government Printing.
